

PERFORMANCE

CLARIDGE: MARKER WALL

AN EIGHT-HOUR BRAINSTORMING MARATHON. COMPLEX SOFTWARE DEVELOPMENT DIAGRAMS. LARGE-SCALE PLOTTER DOCUMENTS. GANTT CHARTS AND SCHEDULES EXTENDING OVER THE HORIZON. NO MATTER THE SIZE OR FORMAT – CLARIDGE LCS MARKER WALLS PRESENT INFORMATION WITH CLARITY AND STYLE.

SOLUTIONS

EVERY BUSINESS SECTOR TODAY IS DRIVEN BY DATA AND IDEAS. THE SCOPE OF PROJECTS AND RAPID PACE OF WORK DEMAND HIGH-PERFORMING INFORMATION PRESENTATION SOLUTIONS. CLARIDGE LCS MARKER WALLS PROVIDE A LARGE-SCALE SPACE AND PROVEN PORCELAIN ENAMEL STEEL TECHNOLOGY TO CAPTURE AND DISPLAY THE INFORMATION THAT KEEPS YOUR BUSINESS ON TRACK.

CLARIDGE MARKER WALLS ARE AVAILABLE TO FIT YOUR SPACE AND OFFER A VARIETY OF OPTIONS FOR ADDITIONAL STYLE AND FUNCTIONALITY

CUSTOM FITTING AND CUT-OUTS TO ACCOMMODATE WALL ARCHITECTURE AND UTILITIES

FRAME COLORS: CLEAR SATIN ALUMINUM OR 24 POWDER COAT FINISHES

ACCESSORY TRAYS: VARIOUS LENGTHS IN CLEAR SATIN ALUMINUM, POWDER COAT COLORS, OR BLACK VINYL

EXTRA-STRONG MAGNETIC CAPACITY FOR LARGE DOCUMENTS AND HEAVY OBJECTS

CLARIDGE LCS MARKER WALLS

CLARIDGE MARKER WALLS OFFER A ROOM-SIZE PRESENTATION SURFACE DESIGNED FOR HEAVY USE AND MULTIPLE-FORMAT PRESENTATIONS. ULTRA-SMOOTH PORCELAIN ENAMEL SUPPORTS EASY WRITING AND ERASING – OVER AND OVER AGAIN – WITH NO STAINING OVER TIME.

The crisp LCS surface means handwritten text, slides, video, and interactive screen projections can be seen with minimal glare from any angle. Heavy-gauge steel offers unmatched magnetic capacity to safely hold large, heavy documents and other materials. The Claridge LCS Marker Wall is a true multipurpose presentation solution.

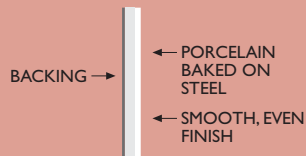

Small markerboards have a role in the workplace, but some applications require more space. Claridge Marker Walls can extend from floor to ceiling, or can be mounted on or into an existing wall. The surface can reach 10 feet in height, and 4-foot wide panels are joined with tight seams for continuous writing ability. Panels are custom-cut and fitted to accommodate angles and wall outlets – and can wrap around gentle curves for a sleek, modern look. A variety of trim options can complement any room décor. Detailed product specifications are available on our website at www.claridgeproducts.com.

Claridge is an industry leader in marker-based products. We introduced the first porcelain enamel steel marker surface to the U.S. market in 1973 – and we continue to achieve advances in the technology to provide a product of superior quality and durability. In fact, Claridge Marker Walls are backed by a 50-year guarantee. We also offer fast delivery, can recommend professional installers, and have knowledgeable customer service to ensure satisfactory performance of your Marker Wall from day one.

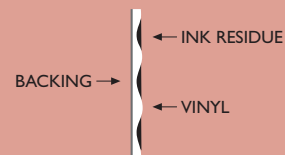

CLARIDGE PORCELAIN OUTPERFORMS VINYL

PORCELAIN SURFACE

VINYL SURFACE

WRITING/ERASING Porcelain is microscopically smooth, allowing easy writing and clean erasing – even after years of heavy use. Vinyl surfaces have microscopic pits that hold ink residue after erasing, resulting in “ghost” images, staining, and fogging over time.

MAGNETIC HOLD Claridge Marker Walls strongly hold large documents and heavy objects. Most vinyl products offer limited magnetic hold.

DURABILITY Porcelain is a hard, baked-on surface that resists chipping and scratching. Vinyl surfaces can slice or scratch, which limits writing and reading ability and impacts overall aesthetics.

SOLUTIONS FOR ANY BUSINESS APPLICATION

Financial service companies use Claridge Marker Walls to view long-term projections. Architecture and design firms post heavy blueprints and samples. Software firms and utilities use them to develop complex flowcharts and maps. Command centers track schedules, and training rooms support all-day sessions. Marker walls add a crisp, elegant look for executive boardrooms and conference rooms. And knowledge workers in any industry appreciate the clean, wide-open space to generate the next big idea.

With guaranteed long-term, multipurpose performance, Claridge Marker Walls offer substantial cost-effectiveness compared to vinyl products. Contact a Claridge consultant at 800-434-4610 – or your local office furnishings dealer – to discuss custom marker wall solutions for unmatched performance and style in the workplace.

For over 60 years, Claridge has manufactured an extensive collection of information presentation tools, including markerboard products, interactive technology, and bulletin boards. We consistently set high standards for quality while adding innovative features, maintaining competitive pricing, and expanding our lines to become a trusted single-source supplier. Claridge also manufactures display cases, directory boards and cabinets, speaker stands, lecture units, accessories, and many other items for use in corporate environments, schools and universities, medical facilities, and industrial applications.
